Bonnie, listed below are four times that I responded during the timeframe you requested. None of these were “after hours” but did involve working into the evening on three occasions, and none were leaving from the office (Fort Meade). Travel times are one way.

Monday 5/5/14 – mobilized to Ephrata, PA from home while teleworking to conduct a mercury assessment at a private residence after a spill. (1.5)

Thursday 6/11/15 – mobilized from a Safety meeting at Boothwyn to the Miller Chemical & Fertilizer site fire to support PADEP. (1.5 hours)

Tuesday 9/22/15 – mobilized to Colonial Pipeline gasoline leak in Centerville, VA from Richmond, VA (predeployed for the bike race). (2 hours)

Thursday 11 7 16 – mobilized from home while teleworking to the Pirch Way Oil spill in Elkridge, MD at the request of MDE. (1 hour)

Greg
